How do I join my IP Address to a Minecraft Server? – To connect to a Minecraft server, you will need an IP address or host name of the server.

Connecting your Minecraft server via your IP address is the same as connecting to it directly through the internet without requiring any extra software. The primary way to get an IP address is by going into your internet browser's settings page and finding out what the current addresses given from your provider are for you. If you are using a Bukkit or Tekkit server, then this should be included with their connection instructions. With individual servers, there are a couple ways that you could go about getting this information. The first way would be to simply ask the host if you can connect to their IP address and they will give it to you. Otherwise, you can go through your router configuration page to find out the information that you need.",
